

The district camp in figures

All together 419 boy scouts and girl guides were camping in Hohenlehen. Amongst those were 108 WiWö, 129 GuSp, 44 CaEx, 14 RaRo, 76 leaders and 48 staff members.

400 kg of apples and 1.500 rolls were eaten.

In total 600 litres of milk were used to get this amount a cow would have been milked for 24 days.

On the campsite 5 chainsaws, 15 no-tebooks, 1.5 km of cable, one Unimog with a mobile crane, an auger drill and a wireless-Lan network were in use.

To set up the camp (i.e. the festivity tent) 1.600 m² plastic cover were used. This compares to 23 average flats.

Two languages were spoken at the camp: English and German.

Some 5.000 pieces of paper were printed in the administration bus. This corresponds to a distance of 2 km.

10 km of string were used at the camp. This amount would run all the way to Hollenstein around the church and back to the camp ground.

At the Yoland '09 logo 16 tents are indicated.

One leg of a boy scout had to be put in plaster.

The weight of the nails that were used, equals the weight of all killed flies and wasps - 5 kg.

The planning started 480 days before the camp was opened.

If one would add on all the screws that were used at the camp, this would be higher than St. Stephans church in Vienna.

The whole infrastructure of the camp was set up in 1.000 working hours. If a single worker would have done this job it would have taken him more than 6 months.

There were idle rumours that we had ran out of Manner-Schnitten. This was terribly wrong. In total 3.200 packs of Manner were given out to the participants. This is an average of 8 packs per person.

We are Yoland! We are Scouts!

„Des Laund is Yoland, des Laund is mei Land'. This was the song from the Yoland camp in 1999. Ten years after 420 Scouts kept this tradition of a district camp alive. 293 from WiWö to RaRo and 78 leaders and 48 staff. They camped together from August 6th to 15th. 96 tents were set up on the Hohenlehen high school campus. The scout groups came from: Hollenstein, Waidhofen, Ybbsitz, Kematen, Aschbach, Neuhofen, Amstetten, Wallsee and Pöchlarn. Also a group from England, the Wyke Rangers from Weymouth joined. The English guests think the camp is amazing. Romana from the CaEx Pöchlarn says: "this camp is very exciting because it is a districted camp. Peter and Marlene from the CaEx Neuhofen think

it is amusing. A great districted camp Yoland '09 is ending. The participants will come home with stories from long hikes, crime investigations, great adventures and some crafts from the workshops.

Heroes from the Kitchen

They probably had the longest working days of all the participants of the camp. But they were always in a really good mood. From early morning to late at night they worked right next to the camp in the schloss. Under the supervi-

sion of Andrea Kirchdorfer the Guildscouts prepared amazing food. Amazing was the tasty pork roast and apricot dumplings that were sweet. In the night shifts they prepared the hiking food packages and the breakfast. Even before the

camp, the chef created for 20 participants' vegetarian and lactose free meal ideas. All participants will leave Yoland 2009 with several extra kilos. We will give to the chefs 3 golden cooking spoons for their efforts.

The Camp Leaders say....

After 2 years of preparation we have finished: The district camp 2009 took place. Thanks to the 400 participants and helpers from all the 10 groups in the districts the camp we dreamed of took place. We thank everyone that helped by giving their ideas, hard work, skills, free time and holidays. This great cooperation on a district level is not always there, it is something that some districts dream of. Therefore we can be proud of our district. Kathi Stelmüller & Günter Reichenpader

That was YOLAND '09!
